Year 2018 is a year of breakthroughs, partnership and gratitude.

With the theme of 2018, "Engage To Empower". We aim to engage all Jayceettes members, sister chapters, friendship pacts and partners from diversified sectors such as the government, social civic sector and commercial sector, and strive to create positive changes and amplify the impact by empowering others with the shared values.

With collective wisdom and efforts of our members, we adhered to our common goal and have set new milestones for the chapter at different aspects. May our passion in exemplifying the JCI Mission and Values continue to create new possibilities and positive changes.

After the very exciting night of Award Banquet at National Convention, we were more than grateful to have received all the congratulatory messages on our achievements in 2018. Yet, I am more honored and gratified by feeling the personal growth, motivation and bonding that have grown among members this year.

I would like to express my heartiest thanks to all members of JCI Hong Kong Jayceettes who trusted and responded to the goal; we worked together and continue to set new milestones for the chapter, such as the record-high membership figures in recent decade, the two prominent sustainable flagship projects reaching new heights and boundaries, the new partnership with the commercial, media, government and social sectors further enhancing our chapter exposure and engagement in projects with all three sister chapters.

May I again extend my sincerest thanks to the dedicated board, all project teams and the tremendous support from all the Past Presidents, Senators and fellow Jayceettes members. My deepest appreciation also goes to all Jayceettes for their amazing support for the past 49 years. Only with this strong foundation laid could the Chapter continue to flourish and motivate new members to explore new territories. All the recognition should be shared and it is the collective efforts that brought the chapter to another new height!

I hope you enjoy this issue of Snapshots which together we recorded some of the amazing moments over the last few months where together we "Engage To Empower".

#### National President Senator Ronald Kan

Women's rights have been a battle for over a century. Around the world, women have been fighting to advocate for keys issues such as reproductive rights, equal pay, maternity leave, sexual harassment, domestic violence, and many more. In some nations women are fighting child marriage and female genital mutilation, whilst in others it is breaking the glass ceiling. The last few decades has seen a significant increase in the strength of women's movements around the world with campaigns such as HeForShe and MeToo. We are at a critical crossroads for women's rights around the world, and it takes a unified group of dedicated and persevering women to create the global changes that are so necessary.

Over the years, JCI Hong Kong Jayceettes has focused on many local and global issues that have built widespread awareness around the community. From your work in promotion of breastfeeding to the education of youth regarding the Sustainable Development Goals, the hours of planning and action have definitely created positive change in the world. Even in the most recent policy address by the Chief Executive of the HKSAR, breastfeeding measures were mentioned! The world needs leaders like the members of JCI Hong Kong Jayceettes. I am looking forward to your continued initiatives and achievements in the future.

Aside from impactful projects, the most significant aspect of the JCI platform is the potential to transform oneself. As we near the end of 2018, it is a great time for reflection and to fine-tune our life goals to ensure that we are on a track where we are challenged and growing to become great leaders. I hope that every single Jayceette member has been motivated this year to take chances and change their destiny. There are countless opportunities in JCI and I encourage you all to participate fully because only then will you gain priceless experiences.

Congratulations to President countless accomplishments! Beyond BeLive!

Being founded as one of the first lady chapter organizations in Junior Chamber International and if not the world, resonates that big impact that women have in this world.

Empowering others with the shared values that our JCI Creed as bestowed upon the members, one cannot discount the fact that 49 years of excellence was made through the sheer efforts of 49 other women, women that encompass the normal goal to create a bigger impact to society.

Because of my own business, I always go to China for working, but being Jayceettes has a visiting tour with Jaycees which is a totally different experience.

Nowadays, we are all talking about Belt and Road Initiative. So, this is a great opportunity to let me through the workshops to have a further experience of the the Big Bay Area. This amazing workshop was started on 24th June 2018, totally three days to stay in Guangzhou. Besides, We had visited incubators and start-ups, and a comprehensive lesson in a popular University. The most memorable part is I interflowed with youth business person that would inspired me the opportunities in the future. Lastly, I think this is a very good platform for us to make a foundation to develop their careers in China and I am looking forward to the coming Business workshops.

#### **Global Partnership Summit 24-27 July**

#### Sharing by Full Member Marissa Tse

Global Partnership Summit was the first overseas JCI conference I have attended. It was amazing and I'm finding it difficult to put into words just how great it was! I believe it would be one of those things - you need to have been there to fully understand what it is like.

It was a great conference which pushed me out of my comfort zone, encouraged me to meet new people, and where I got inspired. I attended some seminars which I will take back with me to JCI Hong Kong Jayceettes where I will get more involved. It is a great way to get to know JCI and United Nations better and I can recommend it to everybody!

#### JCI Asia and the Pacific Conference 2018 – Kagoshima, Japan "CHESTO! Moving forward Boldly" (Conference Slogan)

#### **Our Members' ASPAC Sharing**

#### **Caren Ngai** (International Affairs Director)

There are two most unforgettable events to me during ASPAC, Luncheon with Sister Chapter Yokohama and "Japan Night". I was so excited during the Japan Night as I can meet many JCIs from around the world in Japan. From their booth, different culture and goods were shown up as for foreigners to explore their location. What a wonderful night it was. Many lovely souvenirs were collected on that day, and I was happy to pack them back to share with members and friends as to let them explore more about Japan. During ASPAC, we had lunch meetings with our Japan sister chapter JCI Yokohama. I was so grateful to attend and met many Yokohama friends . The lunch was arranged in a beautiful "流れそうめん"(Flowing Noodles) restaurant as Jayceettes can try such traditional Japanese cuisine by dipping the sōmen noodles (素麺) inside flowing water, then mixing with sauce before enjoying it. Lovely photos were taken to celebrate our strong sisterhood forever. I was also pleased to visit and to attend their annual big event - Yokohama Opening Port Ceremony on 2 June2018.

#### Yuki Wong (Membership Affairs Director)

Throughout ASPAC, I have participated in three trainings. The unique thing about attending trainings in ASPAC is that you will be able to quickly know other JCI members! Throughout discussions, we contributed and planned projects that were correspondent towards the topic. Also, had a chance to know more about differing cultures and JCI practices in different local organizations. In some countries, they might weight more in community development projects, such as helping the people in need; some countries weight more in business affairs area, where they host business competitions and forums! Knowing more about what other JCI members are doing in different countries have widen my eyes into how projects can be diversified in such a way. Each training was being taught by a different trainer, hence I have experienced various training styles from trainers coming from different cultural backgrounds. Some were more question based, some were more lecture based and some were more discussion based; which worked equally effective with the topics they were teaching! I also got the chance to help serve JCI Foundation in selling JCI ties and scarfs! Special thank you to our JCI Manila brothers in supporting!
